>

> I am still keeping real busy over here in Kosovo (located north of Greece and Macedonia). The attached pictures are of two baptisms that have taken place. The one at the outdoor river is in Greece on the Greece retreat. This is Specialist Erin Black who is a College Student in Madison Wisconsin and was deployed with us to Kosovo. I had three studies with her prior to her baptism and have had one study with her after her baptism. I told her about the church that meets at the Madison Campus and will give her name to them before we come back home from this deployment. The other baptism is of a muslim lady who was contacted by KFOR soldiers on rotations prior to our coming here. She was attending the evening service I conduct here and expressed a desire to learn more about the Bible. So I begin studies with her. I have had numerous studies with her. We call her Miki but her full name is Imrije Kosumaj. She has since left us for employment in Iraq. She went to Houston for training and I gave her a list of churches in Houston and contacted Colin True in the Houston area to make contact with her. Unfortunately they cut her time there down from two weeks to just a few days so i don't know if they were able to make contact. She did call my wife and said she will send her new address in Iraq as soon as she knows it. We have her e-mail address here so i can send her a e-mail and hope she is able to get Internet service at this time.

> I am continuing to conduct three to six sermons a week at three to six different worship services. I am starting to have more meetings with local religious leaders in this area. Friday, June 29, I met with several muslim e-mongs (their form of a minister) and I should meet with four e-mongs on Monday July 2nd. I visit 50 or more soldiers a week and am trying to finish my course that I need for promotion to Lt colonel and Colonel if I go that far. I am extremely busy here and that makes the time go fast. Soon I will be back home again.
